

Logo and Branding for The Sphere

The Sphere is a sanctuary for the modern woman—a nurturing space dedicated to mental health, emotional well-being, and meaningful connection. Rooted in the belief that growth happens together, The Sphere offers a community where women can pause, reflect, heal, and evolve. Through curated experiences and mindful practices, The Sphere creates moments of calm in the midst of everyday life.

Crafted Calm for the Modern Woman.

Brand Identity

The logo uses a customised minimal wordmark with subtle variations in stroke thickness, creating a gentle rhythm across the letters. This unevenness gives the type a sense of expansion and contraction, referencing breathing and a state of calm. The forms are simple and open, avoiding visual heaviness, which keeps the identity quiet and composed. The overall approach is restrained, aligning with a studio focused on slowing down and creating mental and physical balance for women. The four logo colours (shown below) of The Sphere’s logo embody the brand’s core identity and are established as the primary palette and logo family, ensuring visual consistency across all touchpoints.

Brand Element

The concentric circular motif seen around The Sphere logo is a distinctive signature brand element that plays a vital role in the brand’s visual identity. While it is not the logo icon itself, it serves as a powerful extension of the brand language, enhancing recognition and reinforcing the essence of the brand.

It is deeply inspired by patterns found throughout the natural world. These forms are not merely aesthetic; they symbolize harmony, continuity, and the interconnectedness of life—values that lie at the core of the brand’s philosophy, “Crafted Calm for the Modern Woman.”

Modulation & Customisation

- To maintain visual interest while ensuring consistency, the circular motif can be adapted in several ways:
- Scale: Enlarged for bold background statements or reduced for subtle accents.
 - Cropping: Partially visible arcs can create dynamic compositions.
 - Colour Variations: Applied using any of the brand’s primary or secondary colours.
 - Opacity: Adjusted to create depth and hierarchy.
 - Rotation & Layering: Used to introduce movement and a sense of continuity.
 - Pattern Creation: Repeated to form elegant textures or backgrounds.

Symbolism

- By drawing inspiration from these universal natural patterns, the concentric circles become more than a visual device—they embody the essence of the brand:
- Wholeness & Unity: Reflecting the idea of a supportive community where women come together.
 - Growth & Evolution: Symbolizing personal development and lifelong learning.
 - Calm & Balance: Evoking tranquility and emotional well-being.
 - Ripple Effect: Representing how individual healing and empowerment extend outward to influence families and communities.
 - Timelessness: Connecting the brand to enduring natural rhythms that transcend trends.

The primary typeface is drawn from the Avenir Next font family. These typefaces play a crucial role in shaping the brand’s visual identity, reflecting its core values of calmness, modernity, and timeless elegance.

Avenir, designed by renowned typographer Adrian Frutiger in 1988, is a geometric sans-serif typeface whose name means “future” in French. It combines the clean precision of geometric forms with subtle humanist touches, resulting in a typeface that feels both modern and warm.

Avenir Next, an evolution of the original Avenir released in 2004, was redesigned by Adrian Frutiger in collaboration with Akira Kobayashi. This updated version offers enhanced legibility, a wider range of weights, and improved typographic harmony, making it highly versatile across both print and digital applications.

Secondary Typeface

Florelie DEMO

Florelie DEMO serves as the secondary typeface for The Sphere, introducing a warm and personal dimension to the brand’s visual identity. As a handwritten script font, it evokes the charm and intimacy of a woman’s personal notes—thoughtful, expressive, and sincere. Its fluid strokes and natural rhythm reflect authenticity and emotional connection, aligning seamlessly with the brand’s ethos of mental wellness and community. The typeface embodies qualities of elegance, femininity, and softness, helping to create a visual language that feels light, friendly, and approachable.

Complementing the clean and modern structure of the primary typeface Avenir Next, Florelie DEMO adds a human touch that enhances the brand’s emotional resonance. When applied thoughtfully and sparingly, it reinforces The Sphere’s nurturing and supportive environment, symbolizing moments of reflection and connection while maintaining a cohesive and sophisticated brand identity.

Social Media Concept

The social media aesthetic for The Sphere is built on a harmonious and visually calming grid that alternates between evocative lifestyle imagery and text-based posts set against solid colours from the brand’s palette. This structured rhythm creates a cohesive and recognisable feed while maintaining visual interest. Text-led creatives feature minimal and elegant graphic elements—particularly the signature concentric circle motif—reinforcing the brand’s identity without overwhelming the design. Typography combines the modern clarity of Avenir Next with the personal, handwritten touch of Florelie DEMO, adding warmth and approachability.
